96867	Replace. Nib	144	0.1

\*\* Meets low chloride/halogen levels.  
See [www.markal.com](http://www.markal.com) for more details.

## Introducing the New Markal® Valve Action® Paint Marker, Designed From the Inside Out for 21st Century Industry

The New Markal® Valve Action® Paint Marker marks with real paint leaving permanent, durable, highly visible marks. It can be used for parts identification, quality control marking, layout and cut lines and color coding on almost any non-porous surface.

### FEATURES:

- **NEW** xylene-free paint formula eliminates concern about California Proposition 65, EPA HAPS or SARA 313 materials
- **NEW** faster drying paint reduces smears and removed marks while allowing almost immediate handling of marked items
- **NEW** Low chlorides/low halogens paint formula. Most colors are low in chlorides and halogenated compounds allowing use in many stainless steel fabrication and nuclear power industries. Specs vary by color. See [www.markal.com](http://www.markal.com) for details.
- **NEW** ClipGrip Cap for convenient pocket storage and easier removal
- **NEW** Dura-Nib medium bullet tip allows writing on rougher surfaces than conventional nibs and holds up better in tough applications
- **NEW** Largest Color Selection! With the addition of four fluorescent colors and an ultraviolet color for "invisible marking", Markal now has 19 colors; more than any other industrial marking provider
- Temperature range: -50°F to 150°F (-46°C to 66°C)
- Made in the U.S.A.

High Performance Industrial Markers

## FLUORESCENT Valve Action® Paint Marker

**NEW!**

### NEW FLUORESCENT COLORS!

Introducing four new fluorescent colors to the extensive Markal® Valve Action® Paint Marker family: Fluorescent Green, Yellow, Pink, and Orange.

### ORDERING INFORMATION:

Part No.	Color	Qty./ Case	Wt. Lbs./ Case
<b>NEW FLUORESCENT COLORS</b>			
97050	Fluor. Yellow	48	2
97051	Fluor. Green	48	2
97052	Fluor. Orange	48	2
97053	Fluor. Pink	48	2
<b>NEW INVISIBLE/UV MARKER</b>			
97054	Invisible Clear	48	2

### FEATURES:

- Visually distinctive fluorescent colors provide high visibility marks for instant identification. Bright colors glow under a UV or black light
- Fast drying, xylene-free paint conforms to safety standards such as California Proposition 65 and EPA HAPS and SARA 313
- Ideal on metal, plastic, wood, rubber, ceramic, glass and stone
- Fluorescent colors perform best in low light conditions or under black light. Not recommended for extended outdoor uses or in nuclear power applications
- Marking temperature range: -50°F to 150°F (-46°C to 66°C)

## Invisible UV Valve Action®

Illuminates under UV or black light.

When security or quality control checks are demanded, use the New Valve Action Paint Marker-Invisible UV. The newest permanent paint marker from Markal makes clear, invisible marks that illuminate as a bright blue mark when viewed under an ultraviolet or black light.

### FEATURES:

- Ideal for identification marking such as security, quality control, tamper-proofing and anti-counterfeiting
- Perfect for variety of non-porous surfaces: metal, plastic, glass, ceramic, rubber and stone
- Fast drying, xylene-free paint conforms to safety standards such as California Proposition 65 and EPA HAPS and SARA 313
- Marking temperature range: -50°F to 150°F (-46°C to 66°C)
- Not recommended for use on skin
